PROFESSIONAL SUMMARY

Motivated Computer Science student with a solid foundation in software development, algorithmic problem-solving, and AI. Proven ability to build and optimize complex systems (C++, Python, SQL) with a strong security mindset backed by a Cisco Ethical Hacking certification. Eager to secure a dynamic internship to leverage versatile technical skills and contribute to innovative tech solutions.

EDUCATION

Bachelor of Computer Science — Egyptian University of Informatics Expected Graduation: 2027

Relevant Coursework: Data Structures, Algorithms Design & Analysis, Operating Systems, Computer Networks, Software Design & Development, Big Data Engineering, Database Systems.

TECHNICAL SKILLS

Programming Languages: C++, Python, Scala, SQL

Core CS Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), Operating Systems, Software Engineering

Specialized Tech: Artificial Intelligence, Ethical Hacking, Network Security, Big Data, Database Management

TECHNICAL PROJECTS

Healthcare Systems Development | C++, Data Structures, SQL

- Designed and developed a robust hospital management system from scratch using C++ and Object-Oriented Programming (OOP).
- Optimized system performance and memory management by implementing advanced Data Structures.
- Upgraded the system architecture by applying Software Engineering principles and integrating a secure Database for managing historical patient records.

AI & Algorithmic Problem Solving | Python, C++

- Developed an intelligent navigation system for the college campus utilizing AI search algorithms to find optimal paths.
- Implemented custom algorithms to successfully filter and remove noise from images, enhancing image quality.
- Built a logic-based Sudoku solver utilizing backtracking algorithms in Python to efficiently solve complex grids.

Diverse Technologies & Interactivity | Scala

- Engineered an interactive chatbot application using Scala, demonstrating adaptability to functional programming and new tech stacks.

CERTIFICATIONS

Cisco Ethical Hacking Certification | Cisco

Acquired hands-on knowledge in network security, threat mitigation, and ethical hacking principles.
